Continuation of 4(e) Other: Claim 1 specifically seems to have been amended without clearly identifying the amendments being made. For example, the claims pre amble previously recited, "...gateway system having:" and now reads"...gateway system comprising:". It seems the word 'having' has been deleted and replaced with 'comprising', however there are no identifying strikethroughs and underlines to display this amendment to the examiner. Further in claim 1 it seems the "(i)", "(ii)", etc. have also been removed without being identified. The examiner notes that there may be other unidentified amendments to the amendment is the amendment to the amendment and the applicant must provide the previous listing of claims clearly identifying the amendments being made. The examiner notes that there is not the specificant should check each claim for similar mistakes.
